

Walking Stick

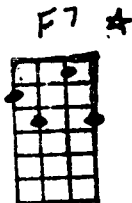

Without my walking stick I'd so insane

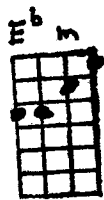

Can't look my best I feel undressed without my CANE

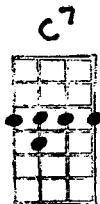

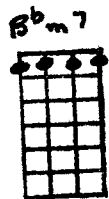

Must have my walking stick cuz it may Rain

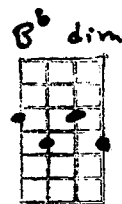

And when it pours can't go outdoors without my CANE

If I ever left the house without my walking stick

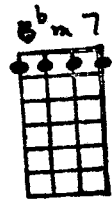

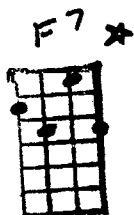

That would just be something I could never explain

4-7-10

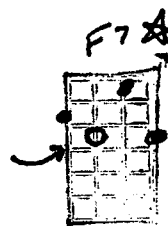

The thing that makes me click on lover's lane

would be fine not if I were caught without my CANE
